

Lubebeta VC: Vacuum Pump Oil

Description

Lubebeta VC is a high performance vacuum pump oil, non-detergent mineral oils. They possess exceptional flash and fire points, as well as high Viscosity Index.

Typical Uses

Lubebeta VC is recommended for most rotary vane and rotary lobe vacuum pumps. It is designed to reduce the effect of the sludge, carbon deposit and contamination problems commonly found in industrial vacuum pumps.

Advantages

- Excellent resistant to water
- High Viscosity Index
- Withstand in high temperature condition

Viscosity, cSt @ 40 °C	32	46	68	100
cSt @ 100 °C	5.13	6.78	8.6	11.1
Viscosity Index	86	101	97	96
Density @ 20 °C	0.87	0.87	0.87	0.88
