Lubealfa LT02: Multi-purpose LT Grease

Description

LT02 is a multi-purpose lithium grease with EP additive which also has chemical stability characteristic. Because of its formula, LT02 is suited for use in various application in your factory, high temperature, high load, for example. This multi-purpose grease has high resistance to mechanical breakdown, excellent oxidation resistance and good rust protection.

Typical Uses

LT02 uses for lubricating in many applications such as high Temperature, heavily loaded, and gears or any point that needs a plain lubrication.

Advantages

- Economical-one grease for many application.
- High EP protects heavily loaded or shock loaded bearings.
- Resistance to water.
- Good anti-rust properties.

NLGI Grade	2
Work Penetration @ 25 ° C	275
Thickener	LT
Dropping Point, ° C	130
Base Oil Viscosity: cSt @ 40 °C	220
Texture	Smooth
Color	Amber
Additives	EP, Anti-wear, Anti-Rust Anti- Oxidation
